COMMUNITY PLANNING AND DEVELOPMENT

WHO ARE WE?

The Office of Community Planning and Development (CPD) seeks to develop viable communities by promoting integrated approaches that provide decent housing, a suitable living environment, and expand economic opportunities for low- and moderate-income persons.

The primary means towards this end is the development of partnerships among all levels of government and the private sector, including for-profit and non-profit organizations. Underlying principles in carrying out our mission:

- 1. Community building begins with job creation, employment, and creation of safe, decent and affordable housing.**
- 2. Planning and execution of community development initiatives must be bottom up and community driven.**
- 3. Complex problems require coordinated, comprehensive, and sustainable solutions.**
- 4. Government must be streamlined to be made more efficient and effective.**
- 5. Citizen participation in Federal, State, and local government can be increased through communication and better access to information.**
